POSTAGE TERMS AND CONDITIONS

- Please note we charge a flat fee based on the service selected. This will be for all parcel weights up to and including 10KG (excluding Royal Mail Services) For any parcels weighing more than 10KG – please contact us for a quote before sending your order.
- We use different methods of packaging all the time for different orders/products, please be aware that packaging weights WILL increase the weight of your parcel and may potentially see the price of that shipment increase to overseas destinations based on the final shipment weight.
- We cannot be held liable for any delays by our couriers – although they provide us with a fantastic service, sometimes, like all couriers – they do experience delays. If an order is delayed, please let us know and we will do everything we can to track down your parcel.
- All Royal Mail shipments MUST NOT exceed 2KG, if they do – we will send the parcel via a courier of our choice as a replacement.
- Please also note, we reserve the right to increase postage costs as and when we see fit, however we will always inform you of any postal increases by telling you 30 days prior to the changes being made live.

- We only show prices for mainstream ROW countries for UKMail / DPD. If you cannot see the destination country of a parcel you would like to send, please get in touch with us and we will quote you for that parcel separately. If you do not contact us for a quote, the order will be sent automatically and you will be charged accordingly. So if you want to know the price prior to sending, please ask.
- All prices for UKMail / DPD services are the same for all parcels regardless of weight. The quote represents a parcel weighing 0-10KG. If your parcel weighs more than 10KG – then please get in touch for a quote prior to sending. If you do not get in touch and your parcel is heavier than 10KG you will be charged accordingly.
- If you have any issues with the pricing structure and/or any courier service that we offer. Please get in touch as soon as possible, so that we can best assist you with your issue.
- Lettersize quotes are based on your item being sent in a padded envelope. If the packers deem the envelope inadequate, then the order will be sent in a parcel.
